

Customer Journey Map

Date	15 March 2026
Team ID	xxxxxxx
Project Name	Rising Waters - Flood Prediction System
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the web application. • Reads project information. • Navigates to prediction page.	• Enters rainfall, humidity, temperature and cloud cover. • Clicks the Predict button. • Waits for the result.	• Views flood prediction result. • Takes necessary precautions if flood is predicted. • Uses the information for planning. • •
Touchpoint <i>What part of the service do they interact with?</i>	• Home page. • Navigation menu. • Browser.	• Prediction form. • Input fields. • Predict button.	• Result page. • Flood/No Flood message. • Recommendation displayed.
Customer Thought <i>What is the customer thinking?</i>	• "Can this system predict floods accurately?" • "Is it easy to use?" • "Will it help me?"	• "I hope I entered the values correctly." • "Let me see the prediction." • "Will it respond quickly?"	• "The prediction is useful." • "I should prepare if flood risk is high." • "This helps in decision-making."
Customer Feeling <i>What is the customer feeling?</i>	Curious, Hopeful	Focused, Expectant	Informed, Confident, Relieved

Process Ownership <i>Who is in the lead on this?</i>	Frontend Team	Frontend + Flask Backend	Machine Learning Model + Flask Backend
Opportunities <i>How can we improve this stage?</i>	• Improve UI design. • Add project guide. • Make it mobile-friendly.	• Add input validation. • Autofill sample values. • Improve response speed.	• Show probability score. • Provide safety recommendations. • Add weather map and alerts.
